An Enhanced Common Information Sharing Environment
for Border Command, Control and Coordination Systems

In this issue

- ➡ Presentation of Andromeda at:
 - A COMPASS 2020 event in South Africa.
 - The 1st Secure Societies "project to policy kick off seminar" held in Brussels, Belgium.
 - A jointly held workshop by the European Coast Guard Functions Forum & EMSA in Lisbon, Portugal.
 - The meeting of Med OSMoSiS in Athens, Greece
- ➡ 2nd plenary meeting hosted at the Naval Research Center of the Portuguese Navy in Alfeite, Almada, Portugal.

Andromeda in brief

Border surveillance is a complex mission, given the length of European borders and the variety of terrain configuration.

In 2010, the European Commission put forward a six-step Roadmap towards the Maritime Common Information Sharing Environment (CISE).

ANDROMEDA aims to unlock the full capabilities of the CISE Model by enhancing the Maritime CISE Model and by extending its scope to the Land Surveillance Information Exchange.

Presentation of Andromeda at a COMPASS 2020 event in South Africa

The Andromeda project was briefly presented on January 29th, 2020 at the Durban University of Technology in South Africa during a dissemination event of the COMPASS2020 project. The presentation was given by Mr. Nexhat Kapidani, Acting Deputy Director of the Administration for Maritime Safety and Port Management of Montenegro.

Presentation of the Andromeda project at the Durban University of Technology, South Africa, during an event of the COMPASS 2020 project

"Andromeda will provide a distributed set of Systems & Services interconnected according to the CISE principles that will foster Faster detection of new events, Better informed decision making and Achievement of a shared understanding & undertaking of a situation on each side of the shared border.

Most importantly, this will be a secure, effective, common situational awareness and information exchange system integrated with CISE."

H2020 1st Secure Societies 'Project to Policy Kick Off Seminar'

On January 31st, 2020 MMAIP (Ministry of Maritime Affairs and Insular Policy of the Hellenic Republic) and KEMEA (Center of Security Studies) represented the Andromeda project at the H2020 first Secure Societies "project to policy kick off seminar" held in Brussels, Belgium. The event, attended by almost 100 participants, was organised by the European Commission (Research Executive Agency, DG Migration and Home Affairs, and DG Connect). The Andromeda project was presented at the thematic area 'Border and External Security'.

Andromeda at the Jointly held Workshop by the European Coast Guard Functions Forum and EMSA

A jointly held workshop by the European Coast Guard Functions Forum (ECGFF) and the European Maritime Safety Agency (EMSA) took place in Lisbon, Portugal on February 11th-12th, 2020. The workshop was titled 'Information Sharing and Data Security in the Maritime Safety & Security Domains'. Andromeda was presented by Lieutenant I. Naziris, from the Executive Structure of the National Strategic Reference Framework, Ministry of Maritime Affairs & Insular Policy of Greece.
